

Appendix Table 1: ACA expansion and nonexpansion states^A

Expansion States

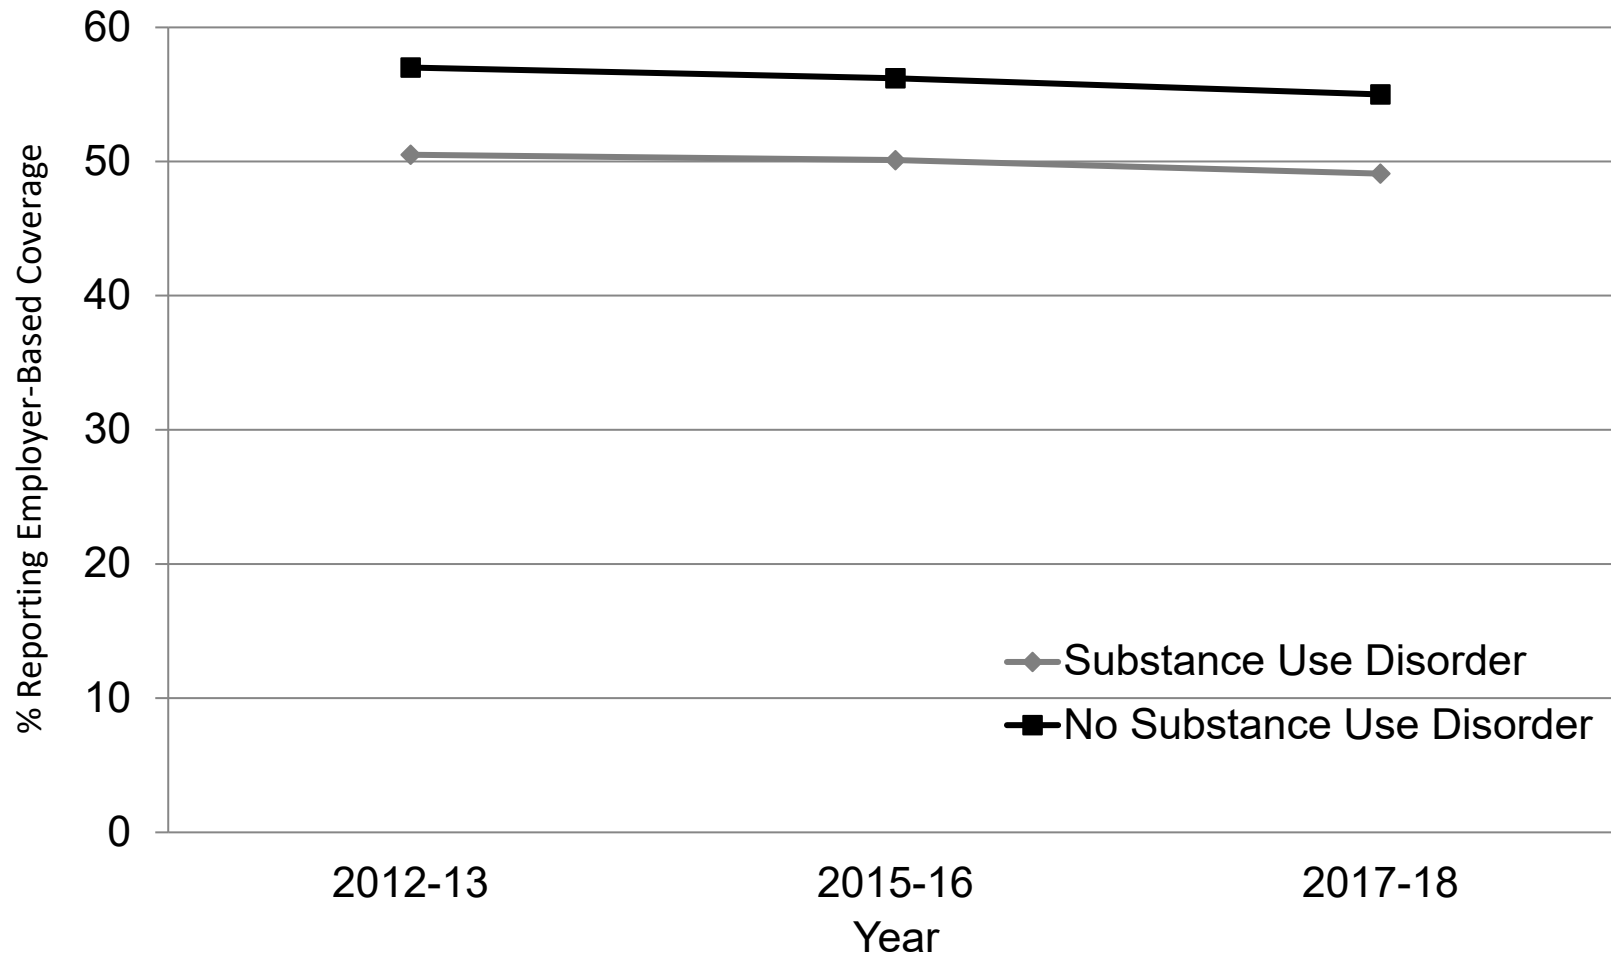

AZ, AR, CA, CO, CT, DE, HI, IL, IA, KY,
MD, MA, MI, MN, NH, NV, NJ, NM, NY,
ND, OH, OR, RI, VT, WA, WV, DC

Nonexpansion States

AL, AK, FL, GA, IN, ID, KS, LA, ME, MS,
MO, MT, NE, NC, OK, PA, SC, SD, TN,
TX, UT, VA, WI, WY

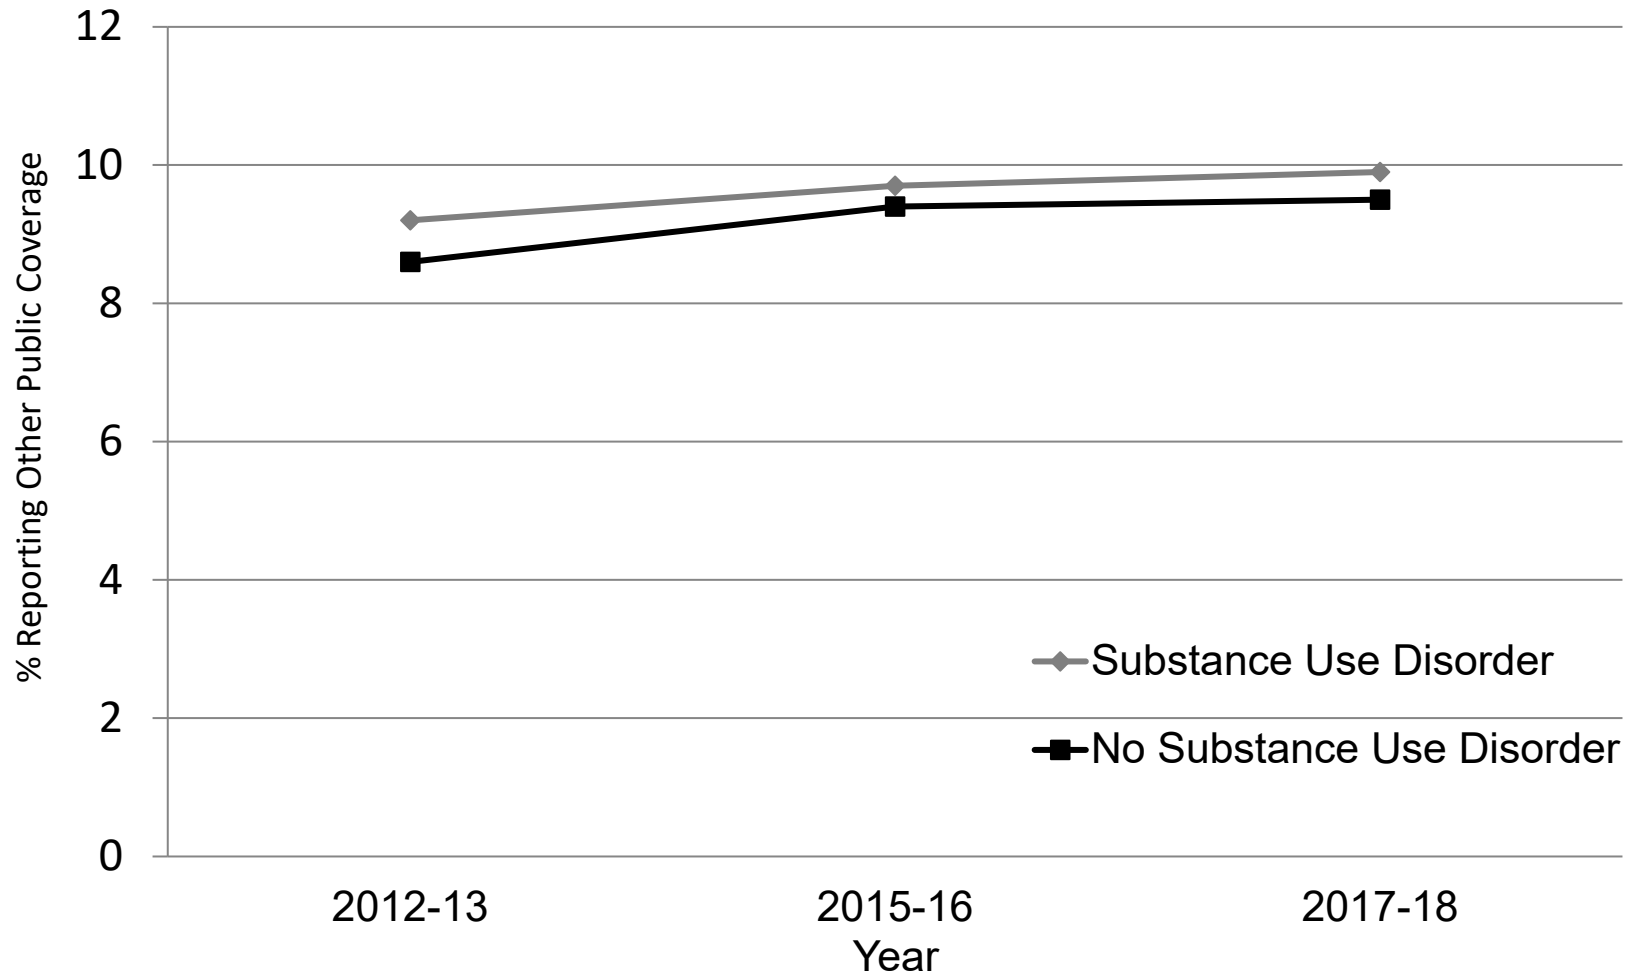

^ABased on reference 18.

Appendix Figure 1: Trends in employer-based private insurance among low- and middle-income adults with and without selected substance use disorders, 2012-2018

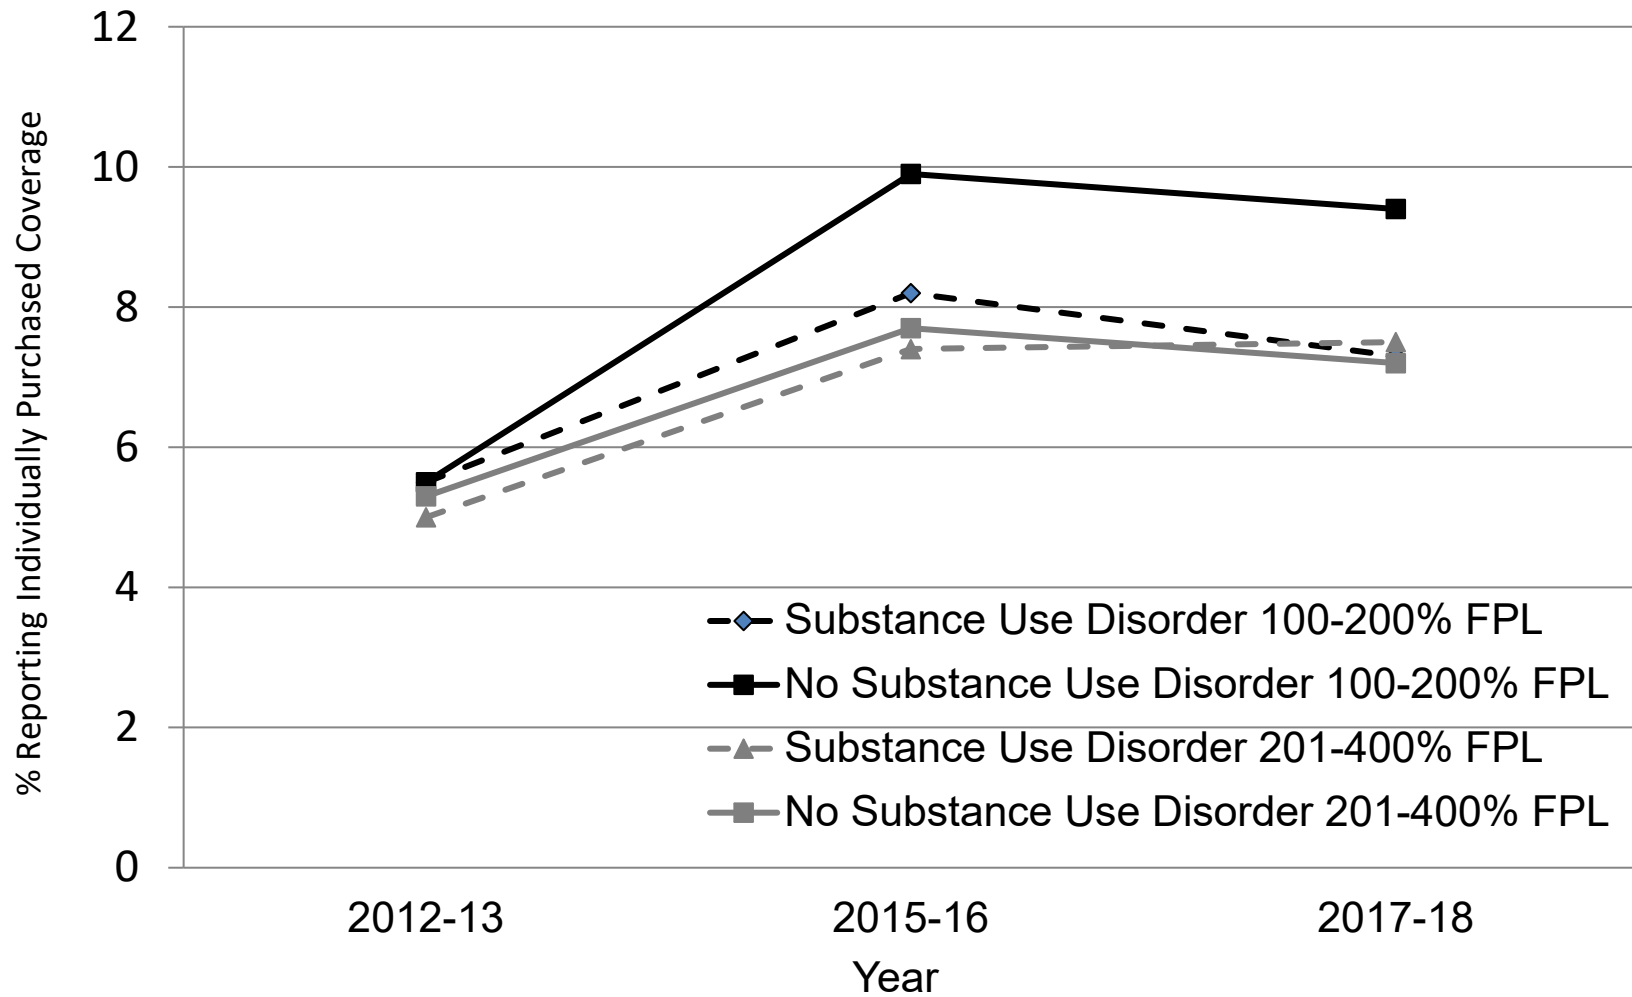

Data from NSDUH. Differences adjusted for age, sex, race/ethnicity, state and education. For ease of presentation, 2015-2016 data are presented as means of modeled estimates from 2012-13/205-16 and 2015-16/2017-18 models.

Appendix Figure 2: Trends in other public coverage among low- and middle-income adults with and without selected substance use disorders, 2012-2018

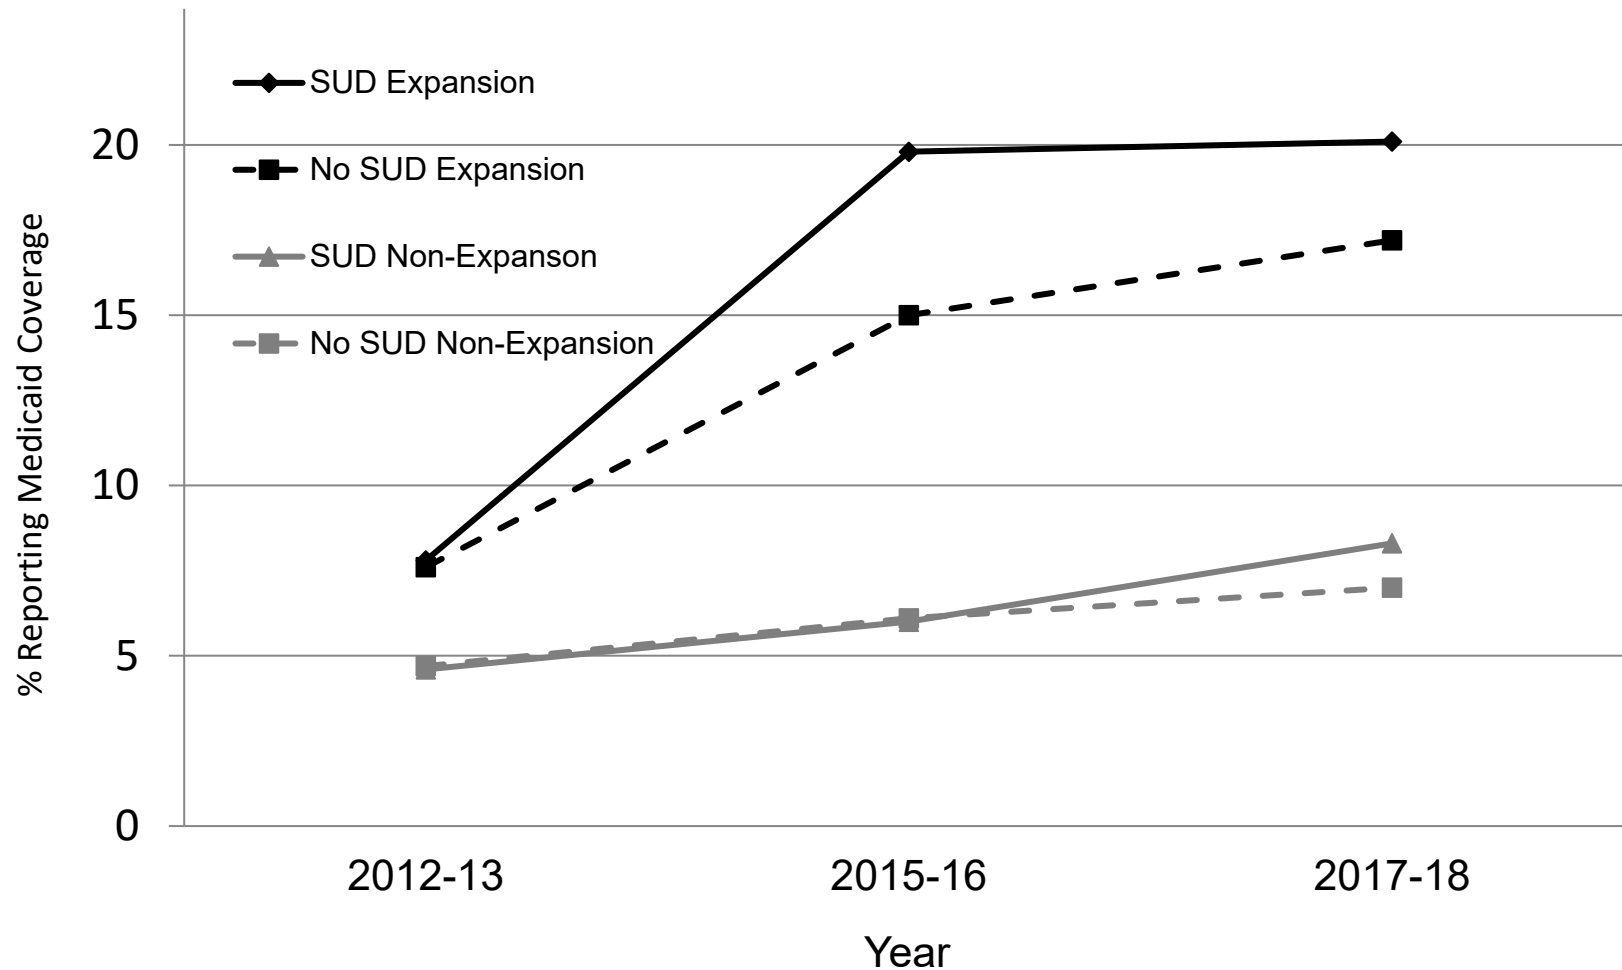

Data from NSDUH. Differences adjusted for age, sex, race/ethnicity, state and education. For ease of presentation, 2015-2016 data are presented as means of modeled estimates from 2012-13/2015-16 and 2015-16/2017-18 models.

Appendix Figure 3: Trends in private individually purchased insurance for low- and middle-income adults with and without selected substance use disorders, 2012-2018

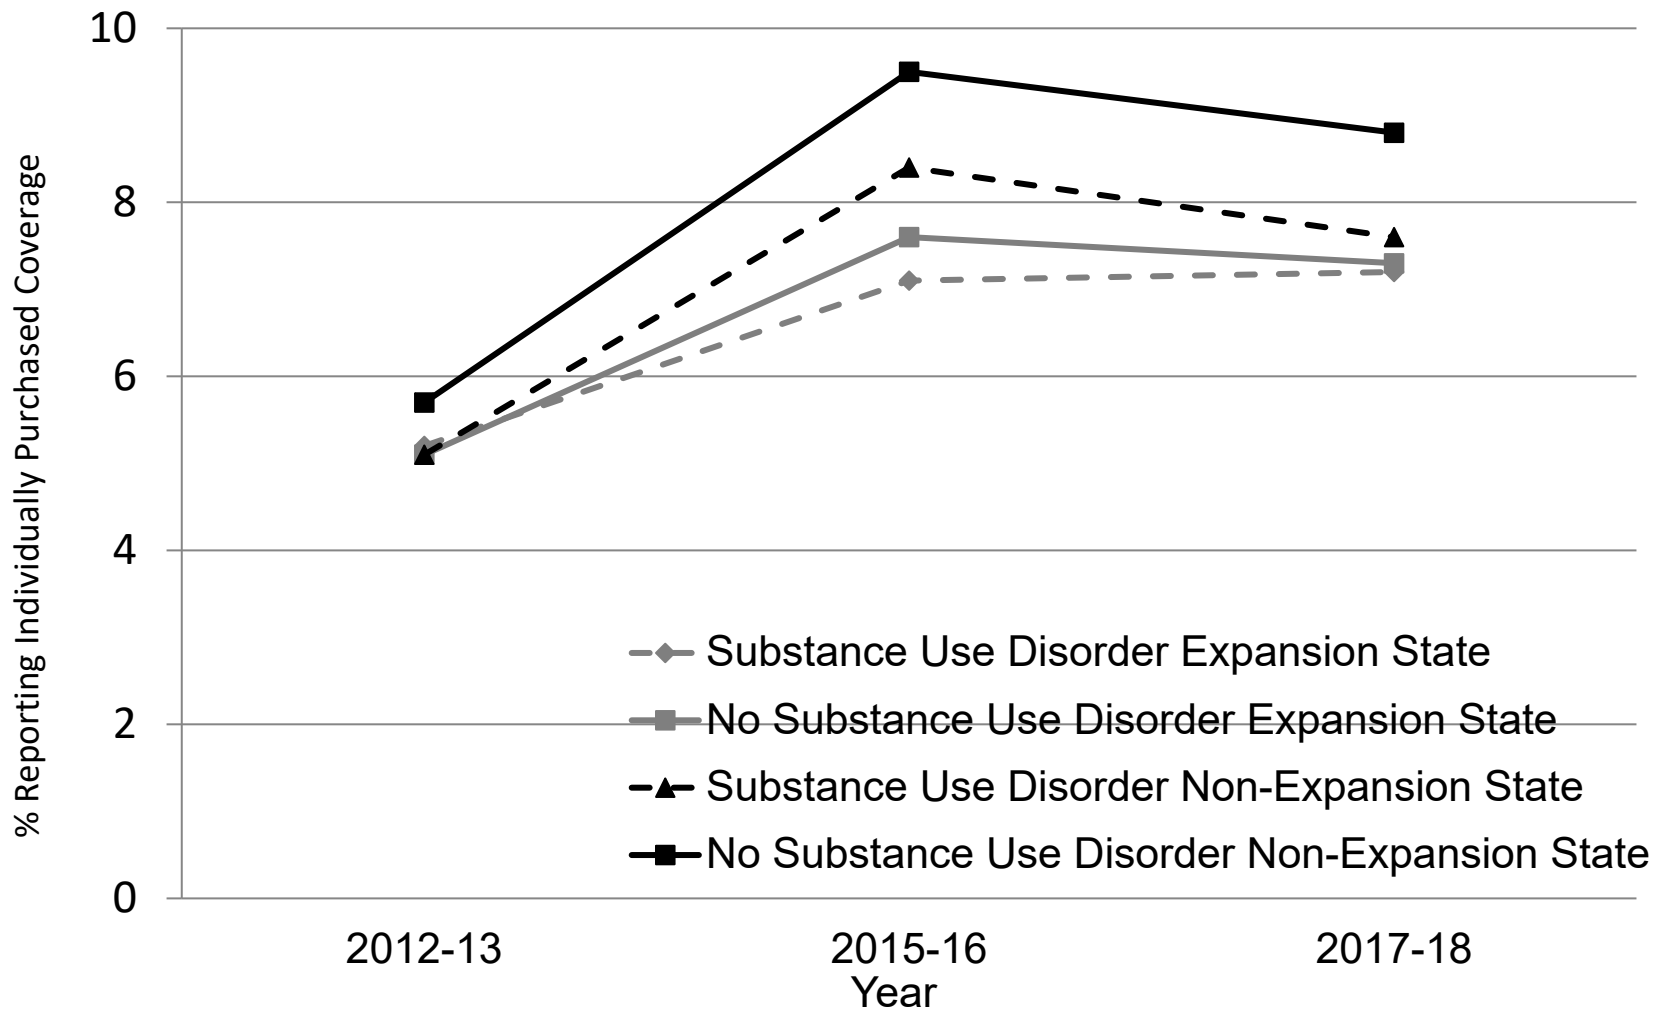

Data from NSDUH. Differences adjusted for age, sex, race/ethnicity, state and education. For ease of presentation, 2015-2016 data are presented as means of modeled estimates from 2012-13/2015-16 and 2015-16/2017-18 models. FPL denotes Federal Poverty Level.

Appendix Figure 4: Trends in Medicaid coverage among low- and middle-income adults in expansion and non-expansion states with and without selected substance use disorders, 2012-2018

Data from NSDUH. Differences adjusted for age, sex, race/ethnicity, state and education. For ease of presentation, 2015-2016 data are presented as means of modeled estimates from 2012-13/2015-16 and 2015-16/2017-18 models.

Appendix Figure 5: Trends in private individually purchased insurance among low- and middle-income adults in expansion and non-expansion states with and without selected substance use disorders, 2012-2018

Data from NSDUH. Differences adjusted for age, sex, race/ethnicity, state and education. For ease of presentation, 2015-2016 data are presented as means of modeled estimates from 2012-13/2015-16 and 2015-16/2017-18 models.
